NOVEMBER 18-21, 2003

**International Partnership for the Hydrogen Economy
Ministerial Meeting**

The International Partnership for the Hydrogen Economy (IPHE) Ministerial Meeting will bring together ministers from 14 countries and the European Union to discuss common areas of interest in, and obstacles to, the hydrogen economy in the fields of research, development and demonstration projects, hydrogen policy and regulation, and the commercialization of hydrogen based energy technologies.

Who Should Attend:

- Hydrogen Producers
- Hydrogen Storage and Transportation Companies
- Fuel Cell Manufacturers
- Vehicle Manufacturers
- Oil & Gas Companies
- Electric Utilities
- Mass Transit Agencies
- State and Local Government Representatives
- Legislators
- Environmental Regulators
- Research & Development Organizations and Universities

A technology showcase will be held concurrently. For information on sponsoring or participating in this please email an expression of interest to IPHE@USEA.org or visit www.usea.org/iphe.htm.

U.S. Department of Energy
Energy Efficiency and Renewable Energy

Formatted as a series of plenary and breakout sessions, the IPHE Ministerial Meeting will also provide a forum for the private sector and research communities to share information on the future of the hydrogen economy.

The IPHE Ministerial Meeting will culminate with the signing of a terms of reference pledging each member nation's commitment to the IPHE. Following the signing ceremony, official party representatives in the three standing committees envisioned in the draft terms of reference, Planning, Implementation and Liaison, will meet on the final day of the meeting to develop workplans for future activities.

Please visit the IPHE Ministerial Meeting website at <http://www.usea.org/iphe.htm> for more information and/or to request an invitation.

Why You Should Attend:

- To discuss the future of the hydrogen economy with leading international policy makers
- To learn first hand the contents and future plans for the IPHE collaborative effort
- To help shape future policy
